# SUBJECT INDEX, VOLUME 62

Adrenal cortex
steroids in urine of normal and ACTH-treated guinea pigs, 1
effect of cortisone and corticotropin on release and metabolism of thyroid hormone, 9
reversal of regeneration hypertension by amphenone, 30
metabolism of exogenous corticoids in dogs, 64
effect on ketogenic response to corticotropin, 75
autotransplantation to portal circulation in male rats, 90
role in alteration of Na and K metabolism following fractures in male rats, 119
and pathological changes in rats exposed to cold, 216
ablation: extra renal effect on Na and K distribution in rat, 259
glomerulosa response in wild and domesticated rats to low and high salt diets, 268
steroid excretion in guinea pig as related to urine volume, 308
chemical fractionation of an adrenocorticolytic drug, 326
biological activity of an adrenocorticolytic agent and isolation of the active component, 534
and hypertensive disease in rats, 365
effect of DCA on thyroxine induced metamorphosis in tadpoles, 371
and liver catalase activity, 385
metabolism of hydrocortisone during inflammation, 455
and pathological changes in rats exposed to cold stress, 474
changes in hypophysectomized mice treated with $\alpha$-corticotropin and GH, 498
ablation and effect on cobalt polycythemia in rats, 547
comparison of renal and hepatic effects of fasting, cortisone, and glucose in normal and adrenalectomized rats, 614
regulation of hepatic glucose metabolism, 621
function in guinea pig as influenced by $C^{14}$ labeled bacterial polysaccharide, 843
Adrenal medulla
reserpine effect on adrenalin and noradrenalin content in mouse and rat, 15
effectiveness of dehydroergotamine in blocking epinephrine-induced hyperglycemia in rabbits and bullfrogs, 696
effect of epinephrine and nor-epinephrine on the acute thyroid release of hormones, 723
effect of hypoglycemia on secretion of epinephrine and nor-epinephrine in dog, 749
Aldosterone
infusion along with 9-$\alpha$-fluorohydrocortisone and ADH into renal artery of normal and adrenalectomized dogs: effect on electrolyte and water excretion, 804
Androgens
bioassay by direct application to combs of baby chicks, 173
effect of succinoxidase of rat adrenal, 237
and estrogen influence on hypophysectomized rat ovary response to gonadotropins, 313
influence of 17$\beta$-hydroxyl group of androstane compounds in promotion of growth in hypophysectomized female rats, 322
from ovary in parabiotic rats, 340
compared with cortisone as affecting uptake of radiosulfur in healing fractures, 493
uterine growth stimulation by 17$\alpha$-ethynyl-17-hydroxy-5(10)-estren-3-one, and 17$\alpha$-ethynyl-19-nortestosterone, 689

Corticosteroids
effect on release and metabolism of thyroid hormone, 9
inhibition of formation by cortical hormones, 47
metabolism of exogenous 17-hydroxycorticosterone in dogs, 64
*in vitro* metabolism of substituted steroids by rat liver, 103
in blood and urine of mice bearing

ACTH-producing tumors, 135
formation in regenerating rat adrenals, 229
effect on succinoxidase of rat adrenal, 237
effect on action of thyroxine and triiodothyronine, 245
production and inhibition of hypertensive disease in rat by corticosterone, 365
and liver catalase activity, 385
metabolism during inflammation, 455
and certain anabolic androgens on radiosulfur uptake in healing fractures, 493
secretion as influenced by pantothenic acid deficiency, 565
extraction from adrenal vein blood of rats and rabbits, 573
metabolism of cortisol-4-$C^{14}$ in the dog heart-lung preparation, 816

Corticotropin
effect on release and peripheral metabolism of thyroid hormone, 9
effect on ascorbic acid concentration of adrenal venous plasma of rats, 24
inactivation by isolated rat adrenals, 47
effect on ketogenic responses as influenced by cortisone, 75
-producing tumors in mice, 185
ketogenic activity: a presumed extra-adrenal action, 150
effect on succinoxidase of rat adrenal, 237
steroidogenic action of, 506

Estrogens
and various steroids: effect on sex differentiation in fowl, 112
and androgen influence on hypophysectomized rat ovary response to gonadotropins, 313
control of the phospholipids of uterus, 410
inactivation by liver in relation to low protein diet and ascorbic acid, 557
lipid-shifting properties of 17α-methyl-17-hydroxy-5(10)-estren-3-one, 798
effect on phospholipid metabolism in the chick, 828

Glucagon
inhibition by lithosperm, 627
inhibition of loss of ACTH in pituitary on incubation, 637

Growth hormone
comparative potency of preparation in acid or alkali, 108
of bovine, porcine and simian origin: effects on costochondral junction of hypophysectomized monkeys, 348
and mitosis in immature mouse liver, 361
and thyroxine, effect on body weight of hypophysectomized mice, 484
and insulin on body weight and N retention in pancreatectomized rats, 593
effect on uptake of neutral fat by the liver *in vitro*, 682

Hypophysis
effect of ablation on serum electrolytes, 61
effect of avian glands on ovary of immature fowl, 84
ablation in chick embryos: effect on muscle protein and DNA, 378
comparative study of luteotropin secretion by hypophysial autotransplants in the rat, 522
effect of nephrectomy on disappearance of exogenous TSH from rat plasma, 677
purification of gonadotropins of urine and hypophysis of man, 738
bioassay of ICSH by ventral prostate test, 833

Hypothalamus
ventral lesions, effect on Na and K metabolism in dog, 442
lipid extract and pitressin, effect on release of ACTH, 605
lesions, effect on sexual behavior and estrous cycles in the ewe, 790

Insulin
and GH on body weight and N retention in pancreatectomized rats, 593
morphologic changes in blood vessels of diabetic hamsters, 579

Lithosperm
and inhibition of glucagon after *in vitro* mixture, 627

Metabolism
a new apparatus for determining $O_2$ consumption in rats, 538

Neurohypophysis
mobilization of ADH and the secretion of ACTH following cold stress, 278
lipid extract of hypothalamus and pitressin on release of ACTH, 605

pitressin and glucagon inhibit loss of ACTH in pituitary incubated *in vitro*, 637

Ovary
response in immature fowl to avian pituitaries, 84
hormone influence on fibrin and fibrinolytic activity re coronary thrombosis, 92
effect on uterus after combined intrasplenic autotransplantation in castrated rats, 391
cycle as influenced by Pathilon, 400
cycle as influenced by synergistic action of mephrobamate and Pathilon, 533
function in ewe as influenced by hypothalmic lesions, 790

Pancreas
urinary glucose and tumor growth in partially depancreatized force-fed rats, 78
histology during and after recovery from alloxan diabetes, 189
effect of orinase on morphology and function, 292
morphologic changes in blood vessels of diabetic hamsters, 679

Parathyroid
osteitis fibrosa after ablation as produced by stylomycin aminonucleoside, 287
influence on removal of $Ca^{40}$ and $Ca^{45}$ from bone by citrate, 709
influence on removal of calcium from bone, 717

Progestagens
of the bovine ovary, 234

Steroids
enzymatic estimation of in human urine, 201
binding of urinary conjugated steroids to serum albumin, 283
influence of 17$\beta$-hydroxyl group of androstane compounds in promotion of growth in the hypophysectomized female rat, 322
effect of 2-methyl-9($\alpha$)-chlorocortisol and stressor agents in producing myocardial necroses, 541
anti-androgenic activity of a synthetic phenanthrene, 693

Testis
age and castration in relation to fatty liver in male rat, 822

Thyroid
iodide concentration in estradiol-treated hypophysectomized rats, 97
ablation at birth and anemia, 129
stimulation produced by NaCl in mouse, 159
thyroxine prevention of nephrocalcinosis, 227
hormone actions as influenced by cortisone, 245
hyperfunction produced by forced feeding of rats, 251
effect on metabolism of pteroylglutamic acid and liver nucleic acids and N, 355
induced metamorphosis in anuran tadpoles as modified by DCA, 371
hormones in hypophysis and brain of rabbit, 416
and TSH production of experimental exophthalmos, 437
iodine metabolism following partial thyroidectomy in rat, 463
and growth hormone, effect on body weight of hypophysectomized mice, 484
*in vivo* thyroxine effect on kidney as influenced by amino acids, 513
radioiodine concentration and thyroid weight in normal obese, and dwarf mice, 535
thyroxine loss in rats fed soy flour, 587
$I^{131}$ metabolism in the pituitary of hypophysectomized rat, 646
$I^{131}$ metabolism in hypophysectomized rats treated with TSH, 664
localization of the thyroxine-binding protein of serum by starch gel electrophoresis, 687
release of hormones as affected by epinephrine and norepinephrine, 723
a theory for a quantitative investigation of iodine turnover in thyroid gland, 758
rate of passage of iodine into and out of thyroid gland of the rat under varying iodine intake and body weight, 768
function and goiter development as influenced by hypothalamic lesions, 783
metabolism of diiodotyrosine, 853
delayed response to serum from thyrotoxic patients, 865
effect of starvation and dehydration on

radioiodine excretion following injections of $I^{131}$ labeled thyroxine, 868

Relaxin
resistance in guinea pigs, 41

Uterus
affected by proximity of ovary after combined intrasplenic autotransplantation in castrated rats, 391
phospholipids as influenced by estrogens, 410
growth stimulation by 17α-ethynyl-17-hydroxy-5(10)-estren-3-one and 17α-ethynyl-19-nortestosterone, 689
